

# Healing Timeline

DAY 1

OMG! So in love with my new brows!

DAY 2-4

They're a little TOO DARK!

DAY 5-7

Oh No!

My brows are patchy and peeling!

DAY 8-10

Umm my brows Are GONE!

DAY 14-28

SWEET! Color is coming back!

DAY 42

After perfecting touch up.

GORGEOUS! I Love them!

# Aftercare Instructions

1. For 1 hour post treatment, blot your brows every 5 minutes with a clean tissue. This step is very important to ensure your brows don't scab too quickly.
2. Evening of treatment—time to wash your brows!
  - a. Wash hands
  - b. Use a TINY bit of cleanser and some water OUTSIDE OF THE SHOWER
  - c. Wash gently in the direction of the hair. It is a LIGHT swipe, just to remove excess oil, lymph, oozing etc.
  - d. Rinse brows THOROUGHLY. Cup water in hands and gently rinse all soap from brows.
  - e. Pat brows dry with a paper towel. Make sure they are COMPLETELY dry.
  - f. Apply GRAIN OF RICE SIZE amount of healing balm SPLIT between both brows
3. Wash brows as directed morning and evening for 10 days
4. Apply balm morning and evening for 10 days
5. NO getting your brows wet other than when washing them OUTSIDE the shower while actively healing (about 10-14 days). This includes sweating, recreational swimming, saunas etc.
6. NO makeup, serums, lotions, etc. on or around brow area while healing.
7. NO direct sun while brows heal (wear a hat while in sun)
8. NO gardening or contact with pet dander for 48 hours
9. Keep healing balm and cleanser for 2nd appointment
10. Seek medical attention if you find signs and symptoms of infection, including, but not limited to, redness, swelling, tenderness of the procedure site, red streaks going from the procedure site towards the heart, elevated body temperature, or purulent drainage from the procedure site.
