

LIPS

Healing process

Day 1

(right after procedure) My lips feel a little swollen and tight

Day 2

My lips are much darker and still feel swollen & dry but I don't feel pain.

Day 3-4

The skin is flaking and scabbing and the color has faded substantially

Day 5-6

My lips feel almost normal. The flaking is almost gone

Day 7

My lips have completely healed but the color is much lighter than after the procedure

Day 14+

The color has come back nicely. There are some uneven spots. Time to schedule touch up
